

City of La Mesa Climate Action Plan Update

Help shape the City of La Mesa's Climate Action Plan Update!

The City of La Mesa is developing an updated Climate Action Plan (CAP) that aims to reduce community-wide greenhouse gas (GHG) emissions. The CAP Update will reflect the City's progress to reduce GHG emissions, evaluate new targets, and consider new measures the City can take.

Background

The City adopted the Climate Action Plan (CAP) in March 2018, affirming its commitment to environmental sustainability. The CAP establishes a long-range roadmap to reduce greenhouse gas (GHG) emissions in the categories of energy, transportation, solid waste, water, and green infrastructure. It guides which implementation activities the City prioritizes in order to mitigate the effects of climate change, supporting La Mesa's vision of a safe, healthy community. Visit the CAP Update webpage for more information.

Instructions

Please complete the survey questions. The survey can be completed online using this link, or printed out and submitted to the City of La Mesa. Surveys can be submitted by email to envirosvcs@cityofflamesa.us or can be dropped off or mailed to City of La Mesa Engineering Department, 8130 Allison Ave, La Mesa, CA 91942.

Energy Sector

Energy Efficiency Actions

1. Do an energy assessment to identify energy savings prior to building construction and renovation.

Do you support this action?

- Yes
 No

Why or why not? _____

2. Borrow a free DIY Energy Saving and Sustainability Toolkit from the City.

Do you support this action?

- Yes
 No

Why or why not? _____

3. Participate in voluntary energy usage evaluation to identify and implement energy savings.

Do you support this action?

- Yes
 No

Why or why not? _____

4. Install building weatherization (e.g., foam window seals, blackout window curtains).

Do you support this action?

- Yes
 No

Why or why not? _____

On-site Renewable Energy & Storage Actions
